-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 1761

1. Claim 7 is objected to because of the following informalities: In claim 7, line 6, "a" should be changed to "the". Appropriate correction is required.
2. The disclosure is objected to because of the following informalities: In paragraph [0001] of the spec., the current status of 10/603,130 has been omitted.

Appropriate correction is required.

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 11-13; 19; 22/11,19; 23-25; 31; 34; 40; 44 and 47/44 are rejected under 35 U.S.C. 102(e) as being anticipated by either Howarth patent as set forth in paragraph no. 6, Paper No. 030606.
6. Claims 14-17; 20; 21; 22/15,17,20; 29; 30; 33; 38; 39; 42; 43; 45; 46; 47/45,46; 54; 55 and 58/54,55 are rejected under 35 U.S.C. 103(a) as being unpatentable over either Howarth patent as set forth in paragraph no. 7, Paper No. 030606. Further,

Art Unit: 1761

finding the optimum amount of the microbiocidal solution (claims 14-16, 20, 30, 39, 45) would require nothing more than routine experimentation by one reasonably skilled in this art.

7. Claims 1-10; 48-53; 56; 57 and 58/56,57 are rejected under 35 U.S.C. 103(a) as being unpatentable over either Howarth patent in view of Hilgren et al as set forth in paragraph no. 8, Paper No. 030606.

8. Applicant's arguments filed June 12, 2006 have been fully considered but they are not persuasive. Applicant's remarks regarding the spray probe missing from the Howarth patents are moot in view of the new ground of rejection of the claims originally rejected on the Howarth patents alone. In the absence of unexpected results, it would have been obvious to alter the concentration of the treatment solutions used on the interior and exterior of the poultry carcasses simply depending upon the desired degree of sanitizing needed to clean each portion of each carcass. Hilgren et al is merely relied upon to show that applicant's use of a spray probe is conventional in treating eviscerated poultry carcasses with a microbiocidal solution, regardless of whether or not Hilgren et al uses the same solution as applicant or the Howarth patents.

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within

Art Unit: 1761

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
